

**Design/build firm, Principle Construction Corp., has completed construction of 12,865 square feet of warehouse and office space within a 13,800-square-foot building at 285 Egidi Drive, Wheeling, for SMW Autoblok Corporation, a supplier of workholding solutions. A luncheon was held at the newly finished space in celebration. Pictured are Sidney N. Roth (left), president of SMW Autoblok, and James A. Brucato, president, Principle Construction. The build-out consisted of 11,365 square feet of warehouse space with an 18' clear ceiling height, 1,500 square feet of office space, and 9,865 square feet of warehouse. Dave Gaulin acted as project manager for Principle, and Partners In Design provided architectural services.**
